## 01 ABOUT

*The short version*

### Search has changed. *I optimize for all of it.*

Results-driven Senior SEO Specialist with 5+ years of experience in technical SEO, organic growth strategy, and website optimization. Currently Senior SEO Specialist at JK Lifestyle Ltd, with expertise in on-page and off-page SEO, keyword and search-intent research, SERP and competitor analysis, semantic SEO and topical authority, entity SEO, E-E-A-T, schema markup and structured data, Core Web Vitals, and both global and local SEO, including Google Business Profile and e-commerce through Google Merchant Center.

My focus now is AI-powered search: AEO, GEO, and LLMO. SEO ranks the page, AEO wins the answer box, and GEO and LLMO earn citations inside generative engines. I run all four as one system. Verified results include a #1 Google ranking in the USA for a high-intent commercial keyword; a 5.0 Upwork rating with full-time retention since July 2023; Lighthouse scores of 95 for Performance and 100 for Best Practices, verified by a third party; and organic reach across six countries within 30 days (GA4: DE, UK, FR, TR, US, and SE).

I optimize brands for the engines people now ask first — ChatGPT, Google AI Overviews, Gemini, Perplexity, Microsoft Copilot, and Claude — with AI-friendly content, structured data, and entity authority. Website development in WordPress and Elementor Pro, plus Claude- and n8n-based workflow automation, handles the build, monitoring, and reporting behind it (Search Console, GA4, Ahrefs, Semrush, Screaming Frog), so the search work scales without adding overhead.

SEO · AEO · GEO · LLMO — OPTIMIZED FOR GOOGLE AND EVERY AI ANSWER ENGINE
