01 ABOUT

🔍 *The short version*

Most marketers buy tools. *I build them.*

Senior SEO Specialist with 7 years of experience across technical, on-page, and off-page SEO, spanning both global and local SEO, Google My Business (GMB), and e-commerce through Google Merchant Center. Now focused on AEO and GEO—optimizing content for AI answer boxes and generative engine citations. SEO ranks the page, AEO targets the answer box, and GEO targets generative engine citation. I apply all three and build systems that compound their impact.

The results are early and verified: USA Rank #1 for a high-intent commercial keyword; a 5.0 Upwork rating with full-time retention since July 2023; Lighthouse scores of 95 for Performance and 100 for Best Practices, verified by third parties; organic reach across six countries within 30 days (GA4: DE, UK, FR, TR, US, and SE); and entity-graph visibility that is uncommon for an independent operator.

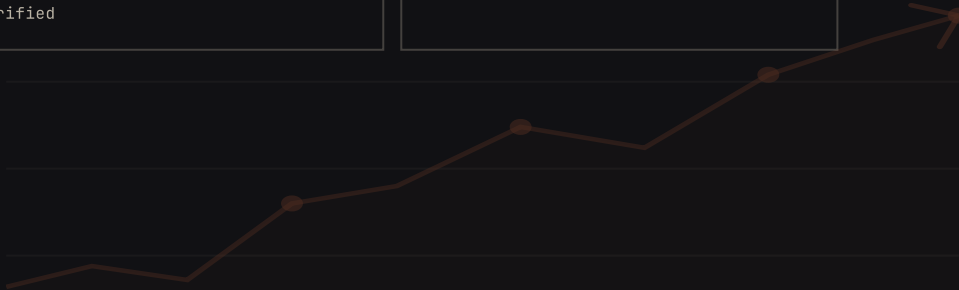

I build workflows using n8n and Claude automation that turn search into a self-compounding system—more than 20 products shipped independently, 14 platforms automated, and end-to-end execution managed by a single operator without vendor support.
